PERSONAL STATEMENT

I am an experienced Full stack developer, continuously driven to acquire new knowledge and expand my skill set. I am adept at collaborating with sizable teams, assuming leadership responsibilities, and making informed design and coding choices when necessary.

Currently, I am actively seeking a stable, long-term position within organizations that cater to either new clients or focus on enhancing existing products. Both types of environments provide opportunities to acquire diverse experiences and showcase innovative thinking abilities, as well as the ethical maturity essential for effective system design and coding practices.
